

Okayo EJ-5

Excellent sound quality with numerous features ensures a safe environment for business meetings, guided tours in high-noise venues and simultaneous interpreting. **The built-in microphone in the transmitter, the loudspeaker in the receiver and the lithium-polymer battery** set this system apart from the competition.

16 channels

operating range 863-865 MHz

up to 20 hours of work

when powered by Li-Pol
 1300 mAh battery
