

# mGuide DLR-02

The **mGuide DLR-02** is a bidirectional digital touguide system from our own brand, mGuide, operating in the 2.4 GHz frequency band – meaning it can operate on any continent!

In addition, it allows **full-duplex bidirectional communication**, allowing for unhindered conversation between the guide and any guest who would like to e. g. ask a question.

The mGuide DLR-02 is fully compatible with its unidirectional older brother, the mGuide DLR-01.

**ISM 2,4 GHz**  
 with GFSK digital modulation

**up to 150 m range**  
 in line of sight

**80 channels**  
 to choose from

**AUX IN jack in transmitter**  
 to hook up an external audio  
 track

**magnetic contacts**  
 for quick charging

**up to 15 hours of  
 continuous operation**  
 thanks to the 1100 mAh  
 Li-Ion battery

# Accessories

**Portable charger  
CB-20x**  
for 20 devices

**Portable charger  
CB-40x**  
for 40 devices

**Transport case  
AC-360**  
up to 60 devices

**Transport bag  
CB-48**  
for 48 devices

**Headsets**  
behind-the-head,  
on-ear

**Hygiene accessories**  
disinfection sprays,  
covers, lanyards

## Technical Specifications

|                           |   |
|---------------------------|---|
| <b>Frequency range</b>    | 2,403 ~ 2,480MHz                          |
| <b>Range</b>              | approx. 150 meters (in the line of sight) |
| <b>Number of channels</b> | 80  |
| <b>Battery type</b>       | lithium-ion battery                       |
| <b>Operating time</b>     | 10 - 15 hours                             |
| <b>Charging time</b>      | 6 - 8 hours                               |
| <b>Connectors</b>         | 3.5 mm (TRRS), USB-C                      |
| <b>Dimensions</b>         | 50 x 88 x 16,5 mm                         |
| <b>Weight</b>             | 60 g (with battery)                       |
